# Head Injury

## Advice for Patients

# Head Injury

After a head injury it is important, in case your head injury worsens, that a responsible person is around for the 24 hours following to keep an eye on you.

Medical help must be sought immediately if any of the following symptoms occur:

- vomiting more than twice.
- a severe headache, which is not relieved with simple painkillers.
- increased drowsiness, lethargy or difficulty in rousing from sleep.
- behavioural changes - typically becoming more aggressive /agitated.
- fits of any severity.

## ADVICE AFTER HEAD INJURY

Additionally, it is advisable to rest as far as is possible.

- You should avoid prolonged close work of any kind i.e. watching television, computer work or reading and it is recommended that you do not return to work or undertake active sport (particularly athletics or contact sports) until you feel completely well.
- Also, avoid alcohol while symptoms last.

Should you require further advice or assistance please telephone **01932 722025** for Accident & Emergency at St. Peter's Hospital.

---

## Further Information

We endeavour to provide an excellent service at all times, but should you have any concerns please, in the first instance, raise these with the Matron, Senior Nurse or Manager on duty. If they cannot resolve your concern, please contact our Patient Advice and Liaison Service (PALS) on 01932 723553 or email [pals@asph.nhs.uk](mailto:pals@asph.nhs.uk). If you still remain concerned please contact our Complaints Manager on 01932 722612 or email [complaints@asph.nhs.uk](mailto:complaints@asph.nhs.uk).
