

Performance in Initiating (Q2)

The name of the Clinical Trial	The Research Ethics Committee Reference Number	The date of receipt of a Valid Research Application	The date at which NHS Permission was given by the NHS provider	If no date of recruitment of the first patient is given, whether the first patient has not yet been recruited or the date of recruitment is not available (First Patient Recruited)	The date of the recruitment of the first patient to the Clinical Trial (if this has occurred) (Date of First Patient Recruited)	The duration in calendar days from the receipt of a Valid Research Application for a Clinical Trial to the time the NHS organisation recruits the first patient for that trial (this will be automatically generated by a formula on the spreadsheet) (Duration between VRA and First Patient)	If the 70 day benchmark has not been met for a Clinical Trial, the NHS organisation must also provide the reason why this was the case.
